

The **ADRC** provided 1,686 one-way driver escort rides in 2022, 1,517 of these rides were accessed by the elderly and 169 were provided to a person with a disability. Our volunteer drivers logged a total of 54,896 miles, with over 2,536 hours of services to Iowa County residents last year.

SWCAP-LIFT rides Program staff and volunteer drivers provided 6,522 one-way trips for Iowa County residents of all ages to get where they needed to go in 2022.

Volunteers, even those who volunteer once in a while, help us to maintain affordable rates for this service. More than 5,700 trips were provided to seniors and folks with a disability and about 1,500 for folks who were not ambulatory. Other riders typically have limited transportation needs. Without our drivers they might have to miss work when their car is in the shop or struggle to find a way home from the hospital. With 7,300 hours of service and almost 156,000 miles driven in 2022, we could not support our grateful clientele in Iowa County and help to maintain their independence without our treasured volunteers!

The **SUN Program** volunteers delivered 24,972 meals to homebound seniors in 2022. Volunteers logged 59,136 miles, with over 3,462 hours of services to Iowa County residents in 2022.

- Help others and pay it forward

Our Services

ADRC

- Non-emergency medical appointments

LIFT

- Work
- School
- Social Events
- Shopping
- Medical
- Travel

SUN

- Home delivered meals

"Thank goodness for the ADRC and LIFT! We, in Southwest Wisconsin, are fortunate to have these transportation services. I have had the opportunity to use both ADRC and LIFT for transport to work, medical appointments, meetings, etc. It is most reassuring to know that there will be reliable and prompt pick-up and delivery, as well as, opportunity to meet and talk with interested and interesting people. I am grateful to the employees and volunteers who facilitate meeting area transportation needs." -- Jodean Grunow, PhD

"I am so grateful to have had the chance to be a volunteer driver. I have met and had long conversations with so many interesting people, from those with mental/physical challenges working at a sheltered workshop to those with substance abuse issues living in a group home. I have driven 19 year olds and ninety year olds. I've learned how to clean a raccoon to put in a stew. I've learned the strengths and nature of a wide variety of Pokemon and Skylanders characters. I'm a city guy who has learned to talk about farming. But I'm most grateful to have had the chance to drive people to life-saving medical treatments such as chemo/radiation and kidney dialysis. I get a warm feeling thinking that I may have played a small part in helping someone get more years of life." -- Michael Britt
